Nutrition Question Box

The price of milk is so high that we cannot afford to use the amount you recommend daily. What cheaper food can I substitute to provide the dietary essential for my children?" This question was sent in to our Nutrition Question Box by a mother in a southern Alberta town.

Miss Joyce Lewis, nutritionist for the home economics service advises that there is no cheaper food than milk when we consider it in terms of food values provided, which is as we should do. No other food can take its place on our Canadian diets. When the price of milk goes up we should not cut down on the amount we use unless it has previously been over the recommended daily allowance. Rather look for other ways of lowering food costs, use less expensive cuts of meat, use cooked cereals instead of the more expensive prepared kind, learn how to save by good buying, avoid waste. And remember too, the cost of milk is in cents, the cost of medical and dental bills is in dollars, by using more milk you may save dollars.

TRY A CLASSIFIED

Contestants Get Application Forms

Applications for grain judging have just been mailed contestants in this year's \$25,000 National Barley Contest sponsored by the Brewing and Malt-making industries.

As was the case last year the forms are in triplicate, colored white, pink and blue respectively. The top of the form is to be used by contestants who ship a carload lot, the bottom half by contestants who hold the grain on their farm for seed.

Accompanying each application form is a cotton bag to hold a 15 pound display sample with an attached tag for shipping it.

Follow instructions of the Contest Committee. If the barley is being shipped fill in the top half of the application form. Send the white copy to the National Barley Contest Committee, 206 Grain Exchange Bldg., Winnipeg. Attach the pink copy to the bill of lading of the car. Put the blue copy into the 15-pound display sample and make sure that the elevator man selects the 15-pounds from the carload. Attach the shipping tag and send it express collect to the address on the tag.

If the grain is being held on

the farm for seed, fill in the bottom half of the application form. Send the white copy to nipeg. Give the pink copy to the seed inspector when he calls to sample the bin and to put the sample into the cotton bag. The contestant keeps the blue copy. Put the shipping tag on the bag and send it express collect as before to the address on the tag.

Accompanying each application form are two yellow cards. Contestants are asked to nail them to the door posts on inside of the car above the grain level.

B. OF M. CROP REPORT

Rains in northern Alberta have been beneficial but elsewhere crops have deteriorated due to high winds and dry weather. Prospects indicate a below average crop, particularly in east-central and south-eastern districts where yields will be poor. Heavy hail damage has occurred in northern areas. An average honey crop is indicated. Sugar beets are in good condition.

Taking your hands off the other fellow doesn't mean wash your hands of him.

A concert violinist recommends milking a cow to keep the hands supple.

WORLD OF WHEAT

By H. G. L. Strange

Higher Prices for Wheat

The Hon. Mr. McKinnon recently announced in the House of Commons that the price to Britain of \$1.55 for wheat averaged 77 cents a bushel lower for 1946 than the world price, which means that prairie farmers are short of about 123,000,000 dollars cash on the 1946 crop. The Hon. Mr. Gardiner, however, stated recently that he felt sure Britain would make up this 123 million dollars by paying later such a price over and above the world price, that would repay our farmers for the 123 million dollars and also for what they may be short on this 1947 crop. Mr. Gardiner also said that the Wheat Board has now in hand to the credit of farmers a surplus of about 150 million dollars cash.

In these circumstances would it not be proper and reasonable for the government immediately to increase the price of wheat? Why, with all this farmers' money in hand and still much more to come does the government need to withhold 20 cents a bushel as they are now doing? The government now holds a large surplus of cash belonging to farmers, the farmers need it. Why not distribute at least 20 cents a bushel on the 1945 and 1946 crops NOW??

best time for seeding fall rye

Experiments have shown the is the last week in August and the first week in September. Rye seeded before this date is liable to become badly infested with stinkweed, thus cutting the yield and also root-rot seems to be more prevalent in the early seeding. If rye is seeded after the second week in September there is danger the rye does not root sufficiently

Gigantic Profits from Poultry

The following should be of interest to any who want to try out a quick rich scheme. No thanks, not for me, never again Quack, quack, the quackers are not for me. I have the coy of the fabulous amount received for 37 5-lb quackers; practically 30 cents each. Exorbitant is it not? Exactly what I paid the Hutterites for baby ducklings. Prett y little devils all right. I got \$50 for a Mexican pup and 30 cents for a duck. Some comparison. Ramsey Nash.

Business Unlimited

Scientists toiled patiently for years to unlock the power of the atom. What business man has toiled patiently, even for hours, to tap the latent good will, loyalty and creative energy in the hearts and minds of workers?

"During the war" says a Canadian business man, "my concept of business was challenged when I realized we hadn't solved the human problem in industry. I decided to quietly experiment in our own plant, without the slightest idea of where to begin, and the most amazing things have happened.

Some of his discoveries are:

1. When there's something wrong, the best place to begin to fix it is to start with where you may be wrong yourself.

2. When relationships get off the beam the simple act of apologizing for where we ourselves are wrong brings something new into the situation and heals the breach.

3. There need be no fear of increased wages when matched by commensurate increased production and there is practically no limit to the wages which workers may legitimately earn.

Results? While wages in this company have increased 95 percent production costs have increased only one percent. The profits have shown a very satisfactory increase too. Which all goes to show that the scientific laboratory is not the only place to experiment. Research into the resources of the human spirit may pay off even better than investigation of atomic energy. And may be the only way of keeping men from using this new energy for self-extinction.

OUR HALF ACRE

By J. G. Umbrite

Seeding of Fall Rye

During the past few years the acreage sown to fall rye has been substantially increased. A survey of approximately 3,000 acres of fall rye was made last spring and it was found that there was considerable winter or spring killing of the fall rye. The survey was made in an effort to try and establish the reasons for the winter killing. It was discovered that there are two varieties of fall rye that are being grown in this district, namely, Dakold or Canadian rye and Russian rye. The Dakold fall rye seed is smaller than the Russian rye seed and therefore is quite easily distinguished.

Special attention was given to these two varieties when making the survey in order that it might be established which of the two is the most suitable for this district. It was found that the Dakold rye did not winter kill as badly as the Russian rye. In only a very few instances did the Dakold rye show any signs of winter killing and the area involved was very small. The Russian rye, however killed out rather badly and there were numerous fields that were killed out so badly that they had to be ploughed down and reseeded to spring grain.

Farmers are advised that if they intend seeding fall rye they will be taking less risk if they seed the Dakold rye. The Russian rye probably yields heavier but it is much more susceptible to winter killing.

To The Man on The Land

"A Personal Message"

This is a request for greater support for Alberta Pool Elevators in the 1947-48 crop year.

The Alberta Wheat Pool is an Alberta farmers' co-operative organization. It happens that I am chairman of the board of directors. I am a working farmer like yourself. Having been chosen to head this organization, I am doing my best to make it a success.

Every bushel of grain delivered to an Alberta Pool Elevator makes an important contribution to the farm co-operative movement.

The farm co-operative movement is the greatest and most effective effort in self-help.

If you are not a patron of Alberta Pool Elevators, I ask you to be one. If at all possible, deliver your grain this season to a Pool elevator. Let us make this Alberta grain co-operative an outstanding success and a monument to the enterprise, solidarity and co-operative spirit of Alberta farmers.

BEN S. PLUMER,

Chairman, Board of Directors,
ALBERTA WHEAT POOL.

Alberta Pool Elevators

Reclamation Of Farm Lands

THE QUESTION OF THE INCREASED development of farm lands in Canada came up in the Dominion Parliament recently when it was announced that a plan was under consideration for such development in the next five years. This is a subject which has been widely discussed and which is of concern from a number of points of view. Although Canada has a great area, with much land which is suitable for agriculture, there is a relatively small amount of land actually under cultivation. With our present population there is no lack of farm land, but should an extensive immigration policy be undertaken, much land that is now not used, would be needed for farming.

Need For More Food Supplies

Another aspect of the question is that if the world remains at peace and present plans for the general raising of living standards are carried out, there will be need for increased supplies of food in the years to come. Canadian farmers are inclined to doubt the possibility of the growth of demand on the world market for their products, but a larger population here and a rise in living standards everywhere would provide wide markets for the products of our farms. Canada made very rapid advances in industry during the war and greatly increased her world trade. For some years there have been no surpluses of farm products here and if the world is not shaken by political or economic disaster, Canadians should be able to look forward to continued prosperity.

Work Of P.F.R.A. Is Well Known

The reclamation of waste land would provide farms for many of our citizens and add to the volume of our food production. Much has already been done in the Prairie Provinces through the work carried out under the Prairie Farm Rehabilitation Act, the value of which is well known to Western farmers. The present proposals are concerned mainly with the reclamation of dykelands in Nova Scotia and New Brunswick and flood control, drainage and irrigation in British Columbia. It would, however, include the clearing and breaking of new farm land all across Canada. Opinions on the question will be widely diversified, but at a time when Canada is growing in many other ways it would seem reasonable that the expansion of facilities for farming should be considered.

Holland May Use B.C. Worms To Recondition Soil

VANCOUVER.—Earthworms bred in British Columbia may be used in the reclamation of war-ravaged Dutch soil.

Leonard Ward, 47, who has specialized in worm culture since his discharge from the army hopes soon to be shipping worms to Holland.

Worms are valuable agents for the removal of salt from the soil and there's a crying need for them in the Netherlands where in many districts the soil has become salt-impregnated.

Russia Needs 10 Years To Arm

OTTAWA.—Members of Canada's Senate and Commons were told behind closed doors that it might take Russia 10 to 20 years to bring her war potential on an equal footing with that of the United States.

Only scant official information was given out on the secret meeting, called to allow L. B. (Mike) Pearson, undersecretary of state for external affairs and former ambassador to Washington, to review world conditions.

But one member said he understood Mr. Pearson to say that war was unlikely for another 10 or 20 years. Another said Mr. Pearson had not been so definite, but had stated that it would take Russia between 10 or 20 years to bring her war potential to a par with that of the United States.

It was indicated the possibility of invasion through Canada's northland in the event of another war and the possibility of projectiles being used against North America were mentioned briefly but kept strictly within the class of "possibilities".

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on "nerves"—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better.

STOP the ITCH of Insect Bites—Heat Rash

Quick! Stop itching of insect bites, heat rash, eczema, hives, rashes, scabies, athlete's foot and other externally caused skin troubles. Use quick-acting, soothing, antiseptic D. D. D. PRESCRIPTION. Greaseless, stainless. Itch stops or your money back. Your druggist stocks D. D. D. PRESCRIPTION.

BE A HAIRDRESSER

Ladies earn more money—learn Hairdressing; a profession offering ambitious women unlimited opportunities. We positively guarantee complete, thorough training under direct supervision of nationally known instructors. Easy pay as you learn plan. Write or call for complete details and illustrated booklet.

Marvel Beauty Schools

YOUNG PIONEER—Youngest passenger ever to sail for the Arctic, six-weeks-old Laren Scott is shown in the arms of her mother, Mrs. Allan Scott, who is going on to Nanaimo to Southampton Island, where her husband is to head a Hudson's Bay Co. post.

Brave Youth Saves 9-Year-Old Boy From Drowning

DUNCAN, B.C.—Sixteen-year-old Eddie Schmid leaped fully clothed into a six-knot Cowichan river current recently to pull a 9-year-old boy from the treacherous waters.

Saved was Peter Hastings, who got into difficulty while bathing with several young companions.

Schmid was loading a gravel truck some distance away when he heard cries of the drowning boy's friends.

Without waiting to pull off clothing or heavy boots, he dashed into the river.

He had a stiff battle to bring the younger boy to shore.

Duncan citizens feel Schmid should receive Royal Humane Society recognition for the rescue.

Size Of Safe No Indication Of Contents

CHICAGO.—Burglars who broke into a wholesale meat market battered a big safe without making a dent in it.

Finally they left, taking a company truck and a small safe. Market officials said the small safe contained \$700, the big one \$25.

Skyscraper strongholds, 10 to 15 stories high, featured the skylines of medieval Italian cities.

TO PREVENT "SHACK TOWNS"

VICTORIA.—To prevent "shack towns" springing up on the fringes of some interior cities, British Columbia has ratified regulations to set up a control area in unorganized territory surrounding Vernon and Kelowna, B.C., in the Okanagan fruit-growing area.

The regulations will not take effect until after public hearings have been held in the two cities. Inspectors in these centres will enforce the regulations, with the right of appeal to boards consisting of a government agent, a city council member and three land-owners.

INCREASE EXPECTED IN ONTARIO'S APPLE CROP

TORONTO.—Ontario will harvest 1,000,000 barrels of apples this year—a 30 per cent. increase over 1946 production—but yields in pears, plums, peaches and cherries will be greatly decreased, the Ontario Agricultural Department announced in its preliminary crop estimates.

The long, cool, wet spring retarded blossoming and during the extended bloom period of tender fruits, bees were inactive, pollination and set were generally poor, causing crop setbacks, the report stated.

The only dust-free air in the world is over the ocean at a distance of more than 600 miles from shore.

RICH, SPICY CINNAMON BUNS

Recipe

Dissolve 1 tsp. sugar in ½ c. lukewarm water; add 1 envelope Royal Fast Rising Dry Yeast. Let mixture stand 10 min. Then stir well. Scald ½ c. milk, add 3 tbs. shortening, ¼ c. sugar, ½ tsp. salt; cool to lukewarm. Add 1 c. sifted flour to make a batter. Add yeast mixture and 1 beaten egg; beat well. Add 2½ c. sifted flour, or enough to make a soft dough. Knead lightly, place in greased bowl. Cover; set in warm place, free from draft. Let rise until doubled in bulk, about 2 hours. When light punch dough down; roll out into oblong piece, about ¼" thick. Brush with 3 tbs. melted shortening or butter. Sprinkle with ¼ c. brown sugar, 1½ tps. cinnamon, ½ c. raisins. Roll up lengthwise in a tight roll; cut in 1" slices. Place cut-side up, 1" apart in greased shallow baking pan. Cover; let rise in warm place until light, about 1 hour. Bake in 425°F. oven about 20 minutes.

FUNNY And OTHERWISE

Teacher (questioning the infants' class after lesson on the Creation, in which she had explained that man "was considered more important than animals): "Now tell me, what did God make man more important than?"

Little boy (aged 5): "Ladies, miss."

The film actor, married and divorced five times in three years, came to the registrar with his sixth bride. It was the same registrar who had married the actor on previous occasions.

After the ceremony, the actor reached into his wallet, but the registrar waved the money aside. "Not this time," he said, "This one is on the house!"

"I hear that you and Maggie have been reconciled and are to be married after all," said McPherson.

"Quite right," replied McIntosh. "You see, Maggie has put on weight and we couldn't get the engagement ring off her finger."

Little Joan was paying her first visit to her unmarried aunt, who had strong views on how small girls should behave. As a result, Joan was far from happy. "Well, my dear," said auntie, "you look so sad, you must be homesick."

"No, I'm not," said Joan frankly, "I'm here sick."

"Your wife is a very systematic woman, isn't she?" asked Robinson.

"Yes, very," replied Smith. "She works on the theory that you can find whatever you want when you don't want it by looking where it wouldn't be if you did want it."

Magistrate—You are sentenced to pay a fine of 10 guineas, plus five guineas costs. Have you anything to say?

Offender—Rather. And if you'll promise not to increase the fine, I'll say it.

Wife—George, dear, would you mind helping me with a little bit of arithmetic?

Husband—Not at all.

Wife—Well, if we pay the cook all the wages she wants, do you think we'll have enough money left to buy anything for her to cook?

"I've just been congratulating Colonel Blaze," said a guest at a luncheon. "He's been appointed governor of a prison."

"Really?" asked his pretty neighbor. "Now, for a job like that does one need influence, or does one just start as a convict and rise from the ranks?"

After the christening the vicar complimented the parents on the fact that their baby did not cry during the ceremony.

"Well, you see," explained the proud mother, "we've been getting him used to it with a watering can."

WHEN YOU'RE LOW ON ENERGY

THERE'S NOTHING QUITE LIKE LIPTON'S TEA

ONLY LIPTON'S BRISK-TASTING TEA GIVES YOU THAT FLAVOR-LIFT

● You've never had a cup of tea like Lipton's—it's so delicious, so rich, so full-bodied, and, above all, so exhilarating! That's Lipton's FLAVOR-LIFT—and only Lipton's has it. For it's the blend that makes Lipton's—and Lipton's who make the blend. You'll notice this amazing FLAVOR-LIFT with your very first cup of Lipton's brisk-tasting tea. You'll say it's wonderful... wonderful anytime, morning, noon and night. Try it! Ask for Lipton's the tea with the FLAVOR-LIFT, at your grocer's today!

Slanted To Flatter

Here's that wonderful new side-line! Most effective, the way Pattern 4571 crosses and buttons. Most intriguing the way it uses scallops to flatter. Opens flat for ironing.

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions.

Pattern 4571 in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38, 40, 42. Size 16 takes 3 1/2 yds. 35-in.

Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

RECIPES

BARBECUED MEAT BALLS

Barbecue frankfurters the same easy way. Takes only a jiffy. Mix together 1 1/2 pounds ground beef, 1/2 cup milk, 2 teaspoons salt, and 1/4 teaspoon pepper. Shape into balls and fry in small amount of fat until browned.

Combine 1 cup catsup, with 1/4 cup Worcestershire sauce, 3 tablespoons chopped onion, 1 teaspoon sugar, 2 tablespoons vinegar, and 1 tablespoon water. Pour over meat in skillet, cover, and cook slowly 10 minutes, turning meat occasionally. Makes 16 meat balls.

For barbecued frankfurters, split open 8 large frankfurters, brown in small amount of fat in skillet, and proceed as directed.

SHOWS QUEER TWIST CONTESTS MAY TAKE

Charlie Chaplin, who does many things in both his private and business life to disturb the normal odds, began the procedure early in life. Once, when he was at the peak of his popularity, a "Charlie Chaplin Contest" was held in a theatre in the East. The person who made up to look most like Charlie was to receive a silver cup. There were other awards for runners-up. The quixotic Charlie decided to enter the contest himself. He came in second.

Loses Temper, Found Gold

NEW YORK. — Gold miner Sam Hallit whacked his head hard, on a spur of rock in the old mine shaft at Kalgoorlie, western Australia the other day. Sam lost his temper, took a swing of his shovel at the offending piece of rock.

The blow, the Australian News and Information Bureau reports, uncovered a rich vein of gold ore.

THIS CURIOUS WORLD By WILLIAM FERGUSON

COPY, 1943 BY NEA SERVICE, INC. T. M. REG. U. S. PAT. OFF.

MOST FISHES CANNOT SEE WHEN OUT OF THE WATER.

THE RIGHT ANSWER

June, reports the weatherman in his formal autopsy on that month, was 2.2 degrees colder and 21 per cent. cloudier than normal.

What, inquired the poet, is so rare as a day in June?

Rare, says Webster, is almost raw. Our answer to the poetic query: A day in March.

NEW ENAMEL

New auto enamel is applied in unusual way. Put on with powder puff, it dries in an hour; will not streak; doesn't crack, fade, chip, or peel for at least two years, according to St. Louis maker.

Answer To Last Week's Puzzle

LITTLE REGGIE

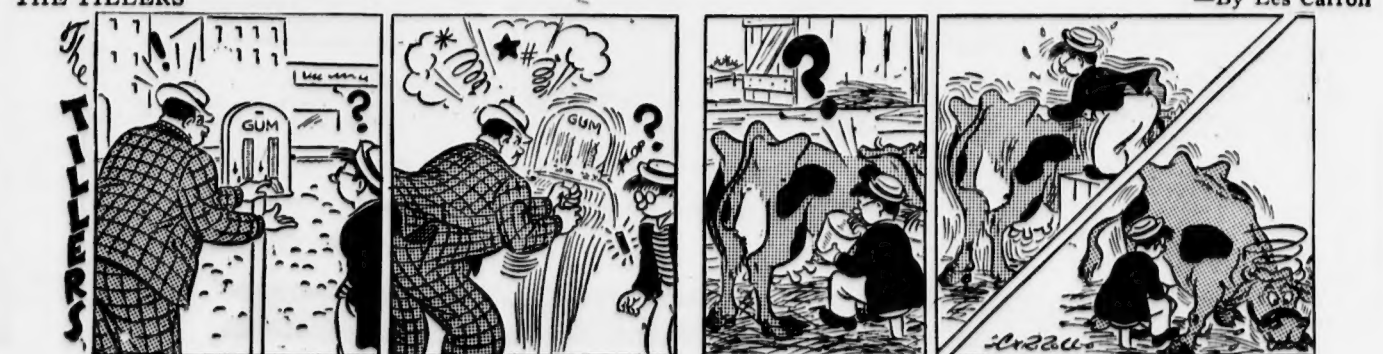

PEGGY

PRISCILLA'S POP—That's Our Boy

THE TILLERS

UNCLE HY SAYS:

Old Johnny Wise shoved off his boat, in line with Orchard Lane, he dropped his anchor, sat him down, but soon was up again, and as he fished, he chuckled some, and said "you

blame old fool, while others search both far and wide, you find a whole darn school."

An hour had passed and up the lake a motor boat came first, "how is the fishing?" asked a man, who slowed down going past, "not good," said John-

ny with a wink, the other yelled "say, Bud, the bass are on the rocks right now, while you are on the mud."

"You tried the rocks?" asked Johnny Wise, "I did," said Knowitall, "how many fish there did you catch?" the man said "none at all," "you think the bass are on the rocks, I don't believe you're right" the man said, "well they're no where else, the beggars will not bite."

Old Johnny Wise reeled in his line, and stood up straight and trim, the other man had gone long since, he grinned at thoughts of him, "Well Johnny

Wise," he told himself, "you're sure one silly ass" and then reached down and pulled on board just ten small moth bass.

It is reported that Europe may not return to normal pre-war conditions for some years yet and this is termed deplorable, though we don't think there should be any rush to get back to inflationary condition economic depressions, famine, etc., of pre-war days, such as marked the Old Continent.

Industry will continue a seed bed for world revolution unless and until it becomes a force for world renaissance.

IMPORTANT GOVERNMENT NOTICE Respecting Price Control

The following list is a convenient summary of the Wartime Prices & Trade Board Order No. 737 and is published for the protection and guidance of the public. It does not give the full text of the Order. For full details reference should be made to the Order itself.

CLIP THIS AND KEEP FOR EASY REFERENCE

Summary of

GOODS AND SERVICES REMAINING SUBJECT TO MAXIMUM PRICE REGULATIONS

As set forth in Wartime Prices & Trade Board Order No. 737—effective June 9, 1947

FOODS

- All flours, flour mixes and meals.
- Yeast.
- Bread, bread rolls, and bakery products.
- Biscuits, except those completely covered with chocolate.
- Processed cereals, cooked or uncooked, including breakfast cereals, macaroni, vermicelli, spaghetti, noodles and other alimentary paste products.
- Rice, excepting wild rice.
- Pot and pearl barley.
- Shelled corn, but not including popping corn.
- Dried peas, soy beans, dried beans except lima beans and red kidney beans.
- Starch.
- Sugar, sugar cane syrups, corn syrups, grape sugar, glucose.
- Edible molasses.
- Tea, coffee, coffee concentrates.
- Malt, malt extract, malt syrup.
- Black pepper and white pepper, and substitutes containing black or white pepper.
- Salad and cooking oils.
- Raisins, currants, prunes, dehydrated apples.
- Tomatoes, tomato sauce, tomato paste, tomato pulp, tomato puree, tomato catsup, chili sauce, when in hermetically sealed cans or glass.
- Canned pork and beans, canned spaghetti, macaroni and vermicelli.
- Canned corn, canned field beans excluding the lima and red kidney varieties.
- Canned apricots, canned peaches, canned pears.
- Fruits and vegetables in the two preceding items when frozen and sold in consumer size packages.
- Strawberry and raspberry jams, and any jam containing strawberries or raspberries.
- Meat and meat products, not including game, pet foods, and certain varieties of cooked and canned meats.
- Sausage casings, animal and artificial.
- Canned salmon, canned sea trout, canned pilchards of the 1946 or earlier packs.
- Edible animal and vegetable fats including lard and shortenings.

CLOTHING

- Men's, youths' and boys' coats, jackets and windbreakers made wholly or chiefly of leather.

- Men's, youths' and boys' suits or pants made wholly or chiefly of cotton or rayon.

- Men's, youths' and boys' furnishings as follows:—blouses; collars; pyjamas; nightshirts; underwear, other than that made wholly or chiefly of wool; shirts, including sport shirts other than those made wholly of all-wool or all-rayon fabric.

- Women's, misses', girls', children's and infants' garments of all kinds (but not including—(a) garments made wholly of all-wool fabric, (b) raincoats, (c) jackets and windbreakers, except when made wholly or chiefly of leather, or (d) dressing gowns).

- Knitted wear for either sex as follows: undergarments, other than those made wholly or chiefly of wool; circular knit hosiery of cotton or rayon.

- Work clothing, including aprons, for either sex, when made wholly or chiefly of cotton or leather.

- Uniforms for either sex.

- Gloves, gauntlets and mitts for either sex when made wholly or chiefly of cotton or leather, except those designed as specialized sports equipment or for specialized industrial uses.

- Brassieres; foundation garments, but not including surgical corsets.

- Diapers and diaper supports.

HOUSEHOLD AND OTHER TEXTILES

- Textile products as follows when made wholly or chiefly of cotton or rayon: bedspreads; blankets, except horseblankets; dish towels; face cloths; luncheon sets; napkins; pillow cases; sheets; silence cloths; table-cloths; throw-overs; towels; wash cloths.

HOUSEHOLD EQUIPMENT AND SUPPLIES

- Furnaces and other heating equipment, except portable electric heaters, fireplace heaters, grates, and baskets therefor.
- Jacket heaters and other water heating equipment.
- Soap and soap compounds.

MOTOR VEHICLE ACCESSORIES

- Pneumatic tires and tubes when sold for the purpose of or as original equipment on agricultural machinery.

CONSTRUCTION PRODUCTS

- Poplar (aspen, balsam and cottonwood) and soft wood lumber of all kinds.
- Softwood veneers.
- Plywoods not wholly constructed of hardwood.
- Millwork such as doors, sashes, windows, stairs and gates, but not including screen doors or window screens.
- Pre-cut soft lumber products designed for use in residential or farm buildings, but not including fully pre-fabricated buildings.
- Gypsum board and gypsum lath.
- Wallboards and building boards.
- Cast iron soil pipe and fittings.
- Nails.

AGRICULTURAL MACHINERY, IMPLEMENTS, EQUIPMENT AND SUPPLIES

- Practically all items of farm machinery, including planting, seeding and fertilizing equipment, plows, tillage implements and cultivators, hoisting machinery, harvesting machinery, tractors, wagons, dairy machines and equipment, sprayers and dusters.
- Articles of barn and barnyard equipment.
- Stationary gas engines.
- Harness and harness hardware.
- Barbed wire and other fencing wire and fences.
- Binder twine.
- Wheelbarrows.
- Feeds and feed products of all kinds except horse meat, pet foods, hay, straw, clam shell and poultry grit.
- Fertilizers of all kinds, but not including humus, muck, manure, sphagnum moss or peat moss.
- Gopher poisons.
- Seed field beans and seed field peas.
- Grains as follows:—wheat; barley; oats; flaxseed; buckwheat; rapeseed; sunflower seed; grain screenings.

RAW AND PROCESSED MATERIALS

- Basic iron and steel products and alloys including pig iron; cast iron and steel scrap, ingots, bars, plate, rods and wire.
- Primary and secondary tin and alloys containing more than 95 per cent tin.
- All fats and oils, including Vitamin A oils, of animal, vegetable or marine origin but not including refined medicinal cod liver oil and core oil.

- Glue stock, glues and adhesives of animal origin.
- Starches.
- Fibres, raw or processed, as follows: cotton, jute, sisal, all synthetic fibres and filaments excepting glass.
- Yarns and threads of, or containing any of the fibres listed above.
- Fabrics over 12 inches in width, in any state, whether knitted or woven, containing over 25 per cent by weight of the yarns and threads referred to above, including corduroy, but not including other pile fabrics.
- Elastic yarns and fabrics.
- Hides and skins from animals of a type ordinarily processed for use as a leather.
- Leathers of all kinds, other than synthetic leathers.

PULP AND PAPER

- Wastepaper.
- Wood pulp, except:
 - (a) dissolving grades,
 - (b) "alpha" grades of bleached sulphate,
 - (c) "Duracel"
 - (d) groundwood and unbleached sulphite grades sold for the manufacture of newsprint or hanging paper.

CONTAINERS AND PACKAGING MATERIALS

- Containers, packaging and wrapping devices of a type used for the sale or shipment of products, when made from a textile fabric and including bags, cases, envelopes, folders and sacks.

SERVICES

- Transportation of goods and services associated therewith.
- Warehousing; dry storage of general merchandise and household goods other than wearing apparel; cold storage, including rental of lockers and ancillary services such as processing charges in cold storage plants.
- The supplying of meals with sleeping accommodations for a combined charge, except when supplied by an employer to his employees, directly or through a servant or agent, or by a hotel as defined in Board Order No. 294.
- The packing or packaging or any other manufacturing process in respect of any goods subject to maximum prices, when performed on a custom or commission basis.

USED GOODS

- Used bags and used bagging and baling material.

Any material shown above processed for incorporation into, or any fabricated component part of any of the above goods is subject to maximum prices.

Also any set which contains an article referred to above is subject to maximum prices even though the remainder of the set consists of articles not referred to.

K. W. TAYLOR, Chairman.

Beiseker Holds Sports

Beiseker's annual sports day sponsored by the Beiseker Lions Club was held on Wednesday Aug. 6th.

The parade that opened the day was one of the best Beiseker has ever had. The clown entry, Moe Bettin, sponsored by the Lions Club was missing from the parade as a result of an accident when the horse he was riding reared up and fell over backwards on him causing injuries to his right leg and hip.

The local band with their new uniforms followed by the OWL Girl Guides, led the parade, which had many entries from Beiseker and surrounding towns. Prizes awarded in the parade were as follows:

Special prize, won by Irricana Lions Club.

Best decorated car: 1, Mrs. Leo Schmaltz; 2, Pete Schmaltz and Mrs. D. Olsen, tie.

Best decorated bicycle, 1, Harvey Silbernagel; 2, Don Schmaltz and Jack Verhaest; 3, Jack Bettin.

Best comic rig, Ernie Little

and Mechanics.

Best decorated horse, 1, Baltzer Schmaltz, 2, Gilb Schmaltz, 3, Allen Hagel.

Races for the children were held at the ball diamond after the parade. Then the Girl Guides with the Beiseker Band participated in a colorful flag raising ceremony on the ground. These were followed by the ball tournament in which Beiseker defeated Irricana in the opener. In the second game Swalwell defeated Strathmore 6-5. A special junior game for \$25 was played in which Beiseker defeated Carbon 5-1. In the final game of the tournament Swalwell took first money defeating Beiseker 9-2.

In the evening an open air dance and carnival was held.

The proceeds will be turned over by the Beiseker Lions to help pay for further completion of the new Memorial Hall.

Wheat production in Greece is estimated at 18,400,000 bushels, a decline of 33 percent from the 1946 harvest of 28,500,000 bushels. France's wheat crop for this year is expected to be the smallest since 1815.

Wheat acreage in Australia this year totalled 16,500,000 acres compared with an average 13 million acres before the war and an average of 8,250,000 acres during the war years. Russia reports she is in the midst of harvesting an "excellent" crop of wheat, rye and oats. Russia hopes that this abundant harvest may end bread rationing.

ENDS MAN'S MONOPOLY—Bachelor Lake, about 100 miles north of Rouyn in the Chibougamau area of Quebec where the search is on for gold, may have to change its name. It's not for bachelors only any more. Mildred (Kit) Jourdin, former war-time Wren and strictly feminine at 97 pounds, invaded Bachelor Lake when she flew in with her fiancé, Deke Orr, veteran bush pilot, and caught a 10-pound pike while Orr unloaded prospector's supplies. Believed the first white woman to enter the Bachelor Lake area, Miss Jourdin lives in Rouyn with her father, one of the pioneers of the Rouyn north country.

FORT WILLIAM, ONT., GIRLS' PIPE BAND—Hailed as "the most beautiful pipers in the land" the Fort William, Ont., girls' pipe band was a big hit when they played at Hamilton, Ont. Laura Crowe, drummer, has a tough job in hot weather. The girls attended mass gathering of Scottish

pipe bands at Hamilton, Ont., and later moved off for a spot of sight-seeing at Niagara Falls, where scores of camera fans snapped Shirley Murphy, Mary Armstrong and Mae Roach.

PRAIRIE FLOODS STALL TRAINS AT BRANDON, MAN.—Prairie floods turned back this train at Brandon, Man., after the Red river went on a rampage. Mrs. Hazel Detenbeck of Bertie township near Fort Erie, a passenger, was going to visit her parents at Swan Lake, Man. She returned to her home when the trains couldn't get through. She said miles of prairie land are flooded.

TARGET FOR MYSTERY BULLETS—Mystery shots fired at car driven by Lawrence Paradie, 19, of Toronto are being investigated by police. Paradie and his wife, shown here, were driving through Kintore near London when he heard about eight shots as car passed him. Police check of residents of Kintore had established shots were fired. None hit Paradie car.

FLYING SAUCERS, OR SPOTS BEFORE EYES?—The theory of Prof. F. S. Cotton of Sydney, Australia, that the "flying saucers" which many citizens of Canada and the U.S. claim to have seen, are nothing more or less than a visual phenomenon, has many persons doing some personal experimenting. The idea is to stare at a fixed point in a clear blue sky, and according to the professor, the red corpuscles of the blood, passing in front of the retina of the eye, give the impression of flying kitchenware. So these two young ladies are trying out the theory.

WINS DIAMOND SCULLS AT HENLEY—Shown above receiving congratulations, John B. Kelly, Jr., won the Diamond Sculls of the Royal Henley regatta, to climax a 26-year campaign of revenge that started when his father was denied the right to compete in the 1920 event because he once was a bricklayer. The 20-year-old University of Pennsylvania student defeated Carl Fronsdaal of Norway by eight lengths in eight minutes and 49 seconds. Kent School, Connecticut, won the Thames Challenge Rowing cup when its eight-man crew defeated Tabor Academy of Marion, Mass., in the all-American final.

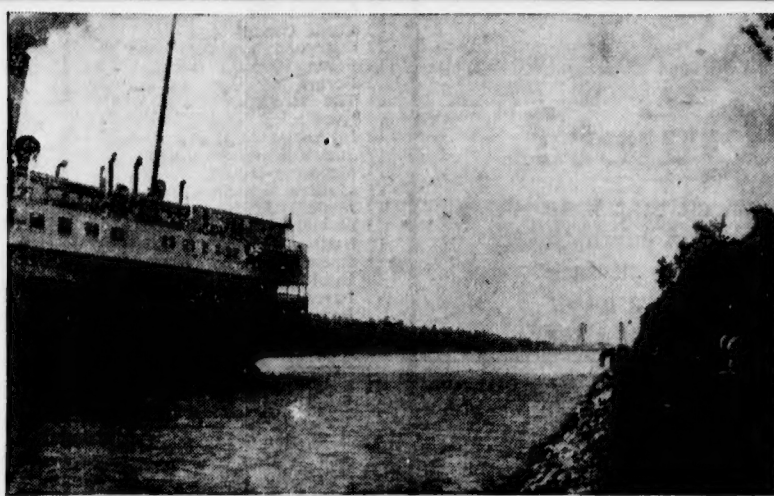

LOST 8 DAYS IN BUSH—Lost eight days in the bush without food near Geraldton, Ont., Omar Lamontaigne is seen recovering in hospital. Lamontaigne says after he recovers he's going to leave the bush country for good.

FINDS LOST HUSBAND SENTENCED TO DEATH—For six years, Mrs. Muriel Preucil, seen here, of Sunderland, Eng., mourned her Czech husband, who disappeared soon after their marriage. Now she has learned that Augustus Preucil, her husband, has been convicted as a Gestapo agent and condemned to be shot as a traitor in Prague.

WILL DO EVERYTHING LEGALLY TO KEEP COMMUNISTS OFF LAKE SHIPS—Seamen's union representatives will have to take affidavits stating they're not Communists before boarding his ships, states Capt. R. S. Misener, president of steamship line. Shown is freighter Osler with escort.

Great Lakes navigation, peaceful since last summer's strike, threatens to become stormy again with barring of some union representatives from ships. Shown is the steamship S.S. Noronic, being pelted by strikers during last year's tie-up.

CAPT. R. SCOTT MISENER—President of the Sarnia and Colonial Steamships, who says he will allow no Communists to board his ships.

OUR COMPLETE SHORT STORY—

INVITATION TO—

By YALE ROE

I HAD made a date with my former college room-mate, Ted Lawson, for seven o'clock; a date for dinner, and for death. After meeting we went to a Chinese chop suey house, a dirty, smelly place. The cigarette smoke stretching toward the ceiling created a synthetic fog. In a corner a juke-box was beating out a nerve-racking boogie.

As Ted lit a cigarette I first noticed how gray his hair had become. But it was twenty years since our graduation day when I had last seen him. The passing of time had changed us both but did not dull my memory of that day.

After the graduation exercises I had started looking for Ted. I had known him for a year but lately he seemed to be acting strangely. He was uneasy when with me and it was not long before I knew why.

Suddenly I caught a glimpse of his curly black hair in the crowd. Making my way towards Ted I saw Susan, my fiancée, with him. Susan and I were going to be married as soon as I found a job.

"Congratulations, Ted!" I clasped his hand.

"Thanks," he said quietly. "Same to you."

As I put my arm around Susan and leaned over to kiss her, she averted her head and stepped back. It was then that I sensed that something was wrong. Stunned, I heard her tell me that she was in love with Ted, that she had been seeing him secretly for weeks. From a conglomeration of bemuddled thoughts I could realize only one thing; that it was all over. I turned and walked away enraged, hurt, confused. In a daze I wandered down a side street and sat at a table of a sidewalk cafe; I ordered a drink and sat for hours, without touching it.

Ted married Susan the following week. They moved to Rhode Island where they lived for only a year before Susan became ill. Within a few days she died; the doctors said it was pneumonia. Perhaps it was poetic justice. Perhaps neither of us was worthy of her.

Ted had been a business executive but he lost all his money during the depression. After that he shifted

around doing various jobs and having finally come to Chicago, he telephoned me. Now, twenty years later, we would meet for dinner and talk over old times.

Being one who was always concerned with himself only, Ted thought that I would soon disregard his marriage to Susan and marry someone else. I never did marry nor did I forget. Rather, the passing years branded my wound deeper and deeper until I was obsessed with a fearful desire for revenge.

I had never thought of myself as one who would someday commit murder. But with every passing day, month, and year my hatred towards Ted Lawson grew until my wrath developed into a frenzy. But my revenge would not be complete if I too would have to die. Consequently, I had long thought out my perfect crime. Over a period of twenty years an act such as murder could be planned most carefully.

Actually it was very simple. About five years ago, while out of Illinois, I had bought a medicine which was poison if taken internally. The effects had all the symptoms of a seizure. I had bided my time for many years so it was nothing to wait another few years until the moment of opportunity would arrive. That moment had finally come. Ironic, I thought, for in reality he was inviting me to kill him. Putting the poison into his drink would be easy enough, and it would take effect within three hours. The doctors would simply say, "Theodore Lawson. Age 41. Died of heart-failure."

The bus boy cleared our dinner dishes from the table. As the waiter approached with our coffee I realized that the time for my revenge was finally upon me. My insides felt strangely empty; my cheek muscles voluntarily flexed but I knew that I would not change my mind. I had waited too long to back out now. With keen alertness I watched for a chance to pour the few drops of poison into Ted's coffee.

Then I noticed a blond woman of about thirty shuffle past our table swinging her hips in time to the music. Ted looked up and smiled. His eyes followed her across the room.

Princess Elizabeth

whose engagement to her childhood sweetheart, handsome Lieut. Philip Mountbatten, formerly Prince Philip of Greece and Denmark, was formally announced by the King. A Princess who was born in an ordinary house, and who will one day become a Queen, is to be a royal bride, whose earliest home was at 21 Bruton street, London, and who as a baby was known all over the world as the "Wee" Princess. She is to have a state wedding in Westminster Abbey, London.

This was my chance but I had to act quickly. With the agility of a cat I shot my arm towards Ted's cup and the deed was done. The drops of poison floated around in the cream and then sunk to the bottom of the cup. Ted turned back and for a moment I thought he had seen me. Then he took the cup in his hand to drink the coffee. My nerves, already tense from waiting to commit this crime, seemed shattered and I jumped to my feet. Still holding the cup in his hand, Ted asked, "What's the matter?"

"Nothing," I answered. "I'm just going over to the counter to get some cigarettes." "Well is that all?" he said. "Here, take one of mine." He set down the cup and took out a pack of cigarettes.

"Oh, that's all right," I told him. "I'd rather get my own brand." I walked to the counter quickly. I couldn't bear to watch him drink the coffee. I wanted to run out but that would give me away. I had to go back. Returning to the table I noticed that half of Ted's coffee was gone. I felt a wave of relief sweep over me. At last it was done. Now I must finish dinner and leave before the poison would take effect.

After we had finished our desserts and coffee we sat for a while smoking and talking. Suddenly Ted burst out laughing. His whole burly frame shook with laughter until I could not stand it any longer. "What is it, What is it?" I found myself shouting.

He said, "You know, I'm a heel. Why it's really funny. When you went to buy your cigarettes, I got suspicious of you. I guess it was because I was always afraid you would do something to me for marrying Susan." He laughed some more.

"Suspicious. What do you mean?" I asked.

"I don't honestly know," he answered. "But suddenly I began to wonder if after all these years you would hate me and if you would try to harm me. So I switched our coffees. You know, like they do in the movies. But heck, you couldn't hurt a fly. That's funny, isn't it?"

The volume of his laugh seemed to swell in my ears. I rose slowly from my chair and walked toward the door. Somewhere in the back of my mind I heard Ted calling me but it did not matter. I knew that now nothing would ever matter.

(Copyright Wheeler Newspaper Syndicate)

STARTED SOMETHING

Two barbers named Wood and Stone were standing on a street corner. A pretty girl passed by. Wood turned to Stone, Stone turned to Wood. They both turned to rubber and the girl turned into a beauty shop.

2734

Leduc, Alberta, "Boom" Town

LEDUC, Alta.—Oil has turned this little Alberta village into a "boom" town but it has changed the lives of the district farmers even more radically.

Farmers who formerly looked out of their kitchen windows and saw acres of golden wheat ripening in the sun, now gaze at derricks and separators. Children who used to return from school to farm chores now dash off to watch the digging and boring. The rich black-gold thousands of feet underneath the ground has suddenly become more important than the crops above it.

Wealth hasn't come to all who have oil on their land. In many cases, the mineral rights of their farms belong to the Alberta government and 12½ per cent. royalty is paid to the province. These farmers receive nothing but the \$50 an acre the oil companies pay for the use of their property.

Others have acquired a fortune virtually overnight. They own their farm's mineral rights and one-eighth of every dollar made by the oil company is returned to them. One farmer, who came to Canada from Poland little more than a decade ago, now has 150 barrels of oil produced on his land daily. He still lives in his two-room shack with his wife and three children.

Property has been sold for as much as \$100,000. New cars have appeared to travel along the dusty gravel roads and narrow country trails. One family bought a home in Edmonton and others are planning trips.

There are many who intend to remain and continue growing wheat on their fertile land. Money in the bank may modernize their farms and provide an education for their children, but they still like working on the soil.

They are predominantly Polish and Ukrainian, but there are several French and Swedish families in the neighborhood.

Religion plays an important part in their lives—small churches dot the district and the spires can be seen for miles across the prairie.

CARBON, ALTA.

CARBON NEWS

Mr. and Mrs. Ed Rouleau
of Didsbury were visitors to
Carbon on Wednesday.

In a Kneeshill Baseball Lea-
gue game at Swalwell last Fri-
day evening Swalwell defeated
Carbon 6-5.

A miscellaneous shower was
held in the Legion hall on Mon-
day evening honoring Mr. and
Mrs. "Punch" Bramley. There
was a good crowd in attendance
and the couple received many
useful gifts. Dancing and lunch
brought the evening to a close.

The A.Y.P.A. held a success-
ful weiner roast on Tuesday
evening.

Constable and Mrs. C. Ross
and family have returned from
a three week vacation.

Don't forget the Legion dance
on Saturday night.

The hill west of town was ac-
cidentally set on fire last Fri-
day. What could of been a dis-
astrous fire was stopped by the
quick action of the town people
and visitors in town who had
the blaze under control in less
than half an hour.

The Carbon Lions Club held
their regular meeting Wednes-
day evening.

Did you enjoy your toast on
Sunday morning? If you use an
electric toaster we'll wager you
didn't. Reason? The Canadian
Utilities men were changing
the transformers in town in an
effort to clean up the "line fry"
you hear in your radio. And it
surely is an improvement espec-
ially for those residing near the
high tension lines.

The Rosedale Juniors took
both games at Rosedale 1st
Sunday to eliminate the Bei-
seker Juniors in two straight
games in the Alberta provin-
cial playoffs.

According to a report releas-
ed Wednesday there will be no
open season on cock pheasants
in Carbon this year. Bag limit
and length of season for ducks
etc., has been reduced. The
only thing that remains the
same is the price of the license.
No reduction in that depart-
ment.

NEW REGULATIONS CONCERNING
AUTO ACCIDENTS

Under the new law licenses of persons unable to pay dam-
ages or judgments are cancelled at once and not renewed
till case is settled. Prevent this calamity by carrying Auto
Liability Insurance. SEE

"A Good Job Every Time"

Off the Record

The Canadian Broadcasting
Corporation, says a report,
wants to be free to spend
more money. This we may add
implies that the CBC really
wants more license!

CARD OF THANKS

Mr. and Mrs. Stewart Hay
wish to thank all those who
helped extinguish the grass fire
on Friday last which threatened
to spread and destroy their
buildings and crop.
